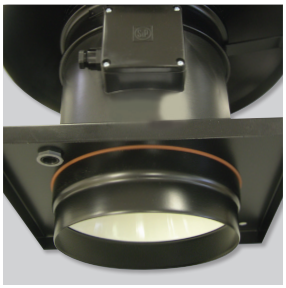
Range of roof mounted mixed flow fans supplied as standard for extract operation. The models are manufactured from high strength injection moulded plastic. The bases are manufactured from sheet steel. The cowls are manufactured from pressed sheet steel or spun aluminium.
All models incorporate a bird guard and base cable gland entry point as standard.
All metallic parts are protected with a black epoxy-polyester weatherproof paint coating.
The motor and impeller casing can be easily removed by 2 fixing clamps.

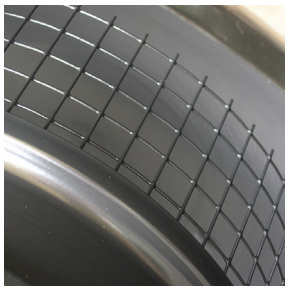
Motors
All motors are IP44, Class F, equipped with thermal protection and ball bearings greased for life.
Electrical supply:
Single phase 230V-50Hz (Capacitor located inside the wiring terminal box).
All motor have three speed connections also suitable for voltage speed control using electronic or auto-transformer controllers.

Additional information
Supplied, in the standard version, as extractors. The motor and impeller casing can be removed and turned through 180º to provide supply air ventilation.

Flame retardant terminal box
Very accessible wiring terminal box in flame retardant plastic V0, with capacitor located inside.



Circular spigot coupling
Circular spigot coupling to facilitate the connection of circular, rigid or flexible ducting.



Bird-proof guard.

TECHNICAL CHARACTERISTICS

Before installation check that the product electrical characteristics listed on the data plate label (voltage, power, frequency, etc.) match those of the intended electrical supply.

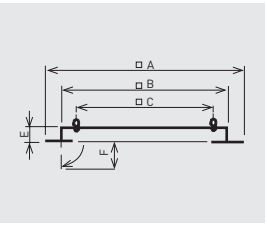
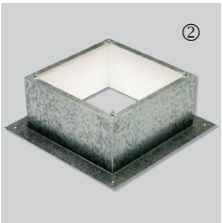
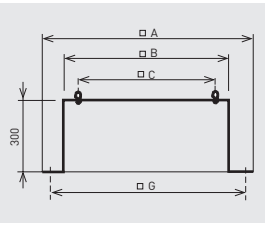
JMS
Sealing frame
- For mounting the roof fans on an up stand or base.
- Provided with screws and gasket for a complete seal.



Model	A	B	C	E	F
JMS-300	470	290	245	50	70

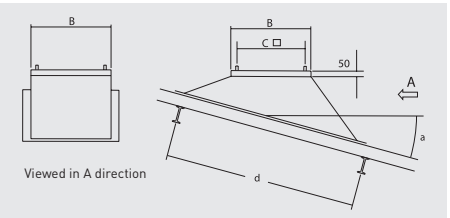


JBS
Flat roof up stand
- For mounting fans on flat roofs with no up stands.
- Internal insulation to avoid condensation.
- Provided with screws and gasket for a complete seal.



Model	A	B	C	E	G
JBS-300	470	289	245	300	380

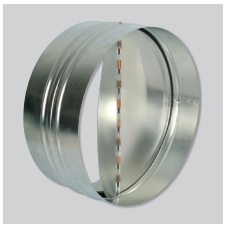
BI
Support base for inclined curb mounted installations
- To ensure the proper installation of the BI product it is essential to specify the roof pitch angle and the distance between the roof beam profiles (as shown).



Model	B	C
BI-3	289	245

d: distance between the roof beam profiles
a: roof pitch angle (curb)

MOUNTING ACCESSORIES



CAR
Backdraft shutter.

GSA
Flexible aluminium ducting.

GSI
Acoustic aluminium ducting.

CX
Worm drive clips.

SIL
Sound attenuator.

ELECTRICAL ACCESSORIES

INTER 4P and COM-3
Three speed switches.

REB
Electronic, single phase speed controller.

RMB
Auto-transformer speed controller
